

LLumar window film helps make it possible for you to enjoy any room, at any time of day.

Stay Comfortable and Efficient

While you love the rooms in your home that are bright and sunny, they often come with a price - hot spots that result in higher than expected energy bills. The source of the problem is clear – it's your windows. This makes it easy to improve on your current situation.

Because windows play a vital role in your home's energy efficiency and indoor comfort, LLumar® window films are recommended to help reduce temperature fluctuations and energy loss. Plus, there are window films suitable for every climate, including four-season options with insulation for cooler times of the year.

How Window Film Improves Comfort

LLumar window films block heat giving you (and your overworked air conditioner) relief from the sun.

Enjoy Even Temperatures and the Sunlight you Love

Open your blinds or drapes and let the sunlight in. LLumar window film is available in a range from light to our highest performing medium shades. No matter your choice, you'll be able to enjoy your view.

* Refer to performance specification at <http://northamerica.llumar.com/llumar-window-film-data-sheets>

Upgrade your windows with LLumar window film and you'll enjoy a more comfortable, energy efficient home.

LLumar window film helps:

Reduce uncomfortable hot spots

Reduce energy consumption

Stabilize indoor temperatures

Protect the environment

Lower home cooling costs
